Monday night, the premiere of Trauma reached **1.6 million viewers** across Canada.

Against strong competition, the show delivered **key female target demos.**

Toronto DMA Ratings
Monday, September 28

“Trauma, is an expertly produced and acted series that stands as the most promising of the three new medical series this season and is arguably the show with the most long-term potential, period.”
-Hollywoodchicago.com-

“Trauma is not the same old song...it's a riveting, multilayered show about fallout; survival amidst the ruins -- a standout among the fall season's offerings.”
-Hollywood Reporter-
